APOLLO TRAINING CLINIC

SYNTHETIC TRAINING RECORD · NOT FOR CLINICAL USE

Laboratory results

Clinical biochemistry and diabetes monitoring

Patient: Robert Chen
DOB: 1953-06-08
MRN: RC-DEMO-002
Report Date: 2024-06-13
Sample collected: 2024-06-12

Selected laboratory values are reproduced from the synthetic patient record. Reference intervals and flags below are fictional training metadata. The sample collection date differs from the report date so that extraction and review can demonstrate the distinction.

Results

Test	Result	Units	Ref Range	Flag
BNP	1840	pg/mL	< 100	H
Creatinine	138	µmol/L	60–110	H
eGFR	51	mL/min/1.73m²	> 60	L
HbA1c	8.1	%	4.0–6.0	H

Report notes

H and L reproduce the high and low flags printed on this training report. They are not calculated by Apollo. Results should be interpreted alongside the clinical record; no treatment recommendation is generated by this report.
